First ever Shire Horse Stallion Inspection Day in Switzerland

Saturday August 10th 2013 was a historical day for the Shire Horse in Switzerland. The first stallion inspection took place at the stable of Shire Horse Switzerland (www.shire-horse.ch). Four stallions entered the inspection which was judged by Mr Philip E. Moss of Congleton, Cheshire, England.

The day started with preparing the horses for the inspection. Preparation was not only washing the feathers but also plaiting the mane and the tail. Although it was not necessary to plait the horses, it was good training and a sign to show how important the day was for the Shire Horse family in Switzerland.

The inspection began in the early afternoon. Everybody was quite nervous and therefore happy when the inspection began. **Stonefield Kingdom T.C.**, owned by Tatjana Jautz and Regula Schori, and **Unonja Shires Geert**, owned by Priska Hegglin entered for the second approval. **Bratton Black Duke**, owned by Axel Seinsche, and **Hawk Hill Rascal Kajetan**, bred and owned by Andrea Iten, participated to get the first approval. The stallions and the owners were supported by many helping hands, family and friends. All were beside themselves with joy when Philip Moss announced that all four stallions had passed the inspection. The successful day ended with a BBQ and with good talks between new and old friends. Shire Horse Switzerland and all participants would like to take the chance to say thanks to Philip Moss for the inspection and the wonderful weekend. Shire Horse Switzerland is hoping that this was a door opener for more Shire events in Switzerland and especially more visibility in the Shire world. Andrea ITEN
